PROPOSED LAWSON SUBDIVISION

The Board of Directors and some residents have been actively involved in ensuring that the proposed subdivision on Lawson Road does not adversely impact Beauregard Estates and its residents. The latest proposal calls for paving and straightening of the curved section of the road. This would eliminate a natural traffic calming device and would create more traffic and at higher speeds through our neighborhood. All residents are encouraged to attend the next **Town Council Meeting** scheduled for **December 18th at 7PM** to voice their concerns.
